

Model 2015WC WINE CAPTAIN®

WINE CAPTAIN® wine storage unit with
24 bottle capacity.

SUPERIOR FEATURES OF ÉCHELON™

- Three temperature zones within one cabinet is an EXCLUSIVE U-LINE feature**
BENEFIT: Ensures that the specific type of wine is maintained at the proper temperature. Sparkling wines such as champagnes are stored at the bottom and maintain a product temperature of approximately 45° F (7° C). White wines are stored in the middle section of the cabinet and maintain a product temperature of 50-55° F (10-12° C). Red wines are stored at the top of the cabinet and maintain a product temperature of approximately 60° F (15° C).
- Five sturdy, slide out, fully extendable wine racks**
BENEFIT: Easy access to all wine bottles especially those located on the rear portion of the rack. Bottles are stored in a horizontal position keeping the cork moist to prevent air from entering the bottle.
- Seamless door frame for black and white units**
BENEFIT: The 1-1/2 inch wide door frame is seamless. It contains no miter cuts in the corners eliminating the "picture frame" look. This provides a much cleaner and sleeker appearance.
- All stainless steel 2015WC units have a wrapped 2 inch wide stainless steel door frame with sculpted, contoured handle.**
BENEFIT: A one piece stainless steel door frame with a sculpted, contoured handle distinguishes the Échelon™ 2015WC stainless steel unit from heavier "commercial" looks. All stainless steel Wine Captain® units have a tinted thermal glass door, a full wrap stainless cabinet, stainless hinges, and black grille. All stainless units must be ordered either right or left hand hinged and are not field reversible.
- Black vinyl wine racks**
BENEFIT: The black vinyl blends well with the wine bottles therefore placing greater visual emphasis on the wine itself. The vinyl coating on the racks also "grip" the wine bottles more securely.

SUPERIOR FEATURES OF ÉCHELON™

6. **The wine racks have a contoured, wooden front facing**
BENEFIT: The contoured front facing adds an upscale appearance to the 2015WC. The wood is maple and is treated for durability and for use in a temperature controlled environment. The wood facing may be stained or replaced in its entirety by the end user with other wood products or such products as Corian®, Sandstone or other like products.
7. **Bottom fixed "Wine Display Rack"**
BENEFIT: Displays wine bottles at an approximate 40 degree angle. The "Display Rack" holds four bottles clearly displaying the labels of two bottles.
8. **Tinted, thermal glass door**
BENEFIT: Protects your wines from potentially harmful light rays.
9. **Field reversible doors (except stainless steel).**
BENEFIT: Greater flexibility where the unit can be installed and allows for side-by-side applications.
10. **Twenty-four (24) bottle capacity**
BENEFIT: Generous wine storage capacity.
11. **Interior light which can remain either "off" or "on" when the door is closed. The interior light will automatically illuminate when the door is opened.**
BENEFIT: For those special occasions when you invite guests to dine, you may attractively "display" your wine collection with the door closed.
12. **Self closing door hinges are engaged when door is open approximately 8-10 inches**
BENEFIT: Ensures a positive door seal and prevents door bounce back.
13. **"L" shaped door hinges**
BENEFIT: This hinge design provides greater door support.
14. **A slightly contoured, across the top, integrated door handle design for black and white models**
BENEFIT: The contoured shape maintains the stylized shape of the Échelon™ series plus permits full door field reversibility on black and white units.
15. **Flat, recessed, front grille with "warmer/colder" control settings**
BENEFIT: Adjustable temperature control. Greater toe kick space. Easy to read molded temperature control settings. The grille shields the interior motor compartment and all electrical components from view.
16. **Adjustable leveling legs**
BENEFIT: Enables you to achieve a more precise under the counter installation. These legs are installed at the factory and are reinforced for extra durability and strength.
17. **Vinyl clad steel cabinet (black/white)**
BENEFIT: Textured rich look. More resistant to scratching, peeling, flaking. The sides of the cabinet extend to the floor.
18. **Available in black, white, stainless steel**
BENEFIT: Blends with all surrounding cabinet colors.
