

BEVERAGE-AIR®

Commercial Refrigerator Equipment General Specifications

Deep well horizontal coolers include four (4) self-contained models in widths of 50", 65", 80", and 95". One shallow well model (SF34) is available in a width of 35".

Exteriors of both deep well and shallow well models include attractive, wear resistant vinyl on steel in two choices of finish (black and wood grain) with black the most popular. Deep well models also include fronts only available in stainless steel identified by suffix (-s) in model number. Bottle cap opener and cap catcher is standard with all models.

Tops of both deep well and shallow well models include easy glide, stainless steel lids and stainless steel counter top with integral glass stops. Optional glass lids, when specified, come with interior lighting. Lid locks are optionally available.

Standard interior metal is galvanized steel. Stainless steel interior is optionally available. Adjustable dividers included are epoxy coated steel wire. Foamed-in-place CFC free polyurethane insulation is standard.

Forced air refrigeration systems provide ample capacity to chill and hold products between 32° and 38°. Refrigerant R134a used in systems is CFC free for compliance to environmental safety concerns. Condensate elimination is automatic and non-electric. Cord and plug are provided for electric connection.
