Four new high-end coffee makers, only from Capresso.

**CoffeeTEAM Therm**

Model #455

**CoffeeTEAM S**

Model #454

**ST600**

Model #490

**MT500 Plus**

Model #441

The completely new CoffeeTEAM Therm features a stainless steel thermal carafe to keep your coffee perfectly fresh, aromatic and hot for hours, without reheating. A stainless steel housing and simple one-button programming design with a new black-on-white illuminated display make this the most sophisticated Coffee Maker/Burr Grinder combination.

After 10 years, the Award-Winning CoffeeTEAM is now better than ever. The all new CoffeeTEAM S features an easy-to-read white-on-black illuminated display. The operating buttons are now encased in an elegant silver metallic panel. Still the only Coffee Maker/Burr Grinder combination with a solid steel conical burr grinder to preserve more aroma and flavor.

If you love coffee and design, this bold but simple stainless steel sculpture makes a captivating statement in today's hi-tech kitchen. The ST600 looks good on the counter with or without the carafe. Features are concealed to enhance the sleek design. Coffee is brewed inside the machine and directly delivered through the spout into the carafe, capturing coffee at its freshest.

Our best selling coffee maker just got more elegant. The new brushed metal filter holder compliments the stainless steel carafe and the unique alloy body.
