Standard Features and Equipment of all Jura-Capresso Automatic Coffee Centers

- Internal 16 grams coffee brewing chamber to brew up to 16 oz. of coffee at once!
- Two-step aroma brewing for maximum flavor and crema
- Commercial Grade Conical Steel Burr Grinder with 6 fineness settings
- Stainless Steel lined ThermoBlock heating system. Unlike boiler systems, there is never any water remaining in the heating system after brewing.
- Easy-to-read, red LED alphanumeric display
- Bypass funnel for use with pre-ground coffee
- Height adjustable dual coffee spout
- Automatic Monitoring Systems for: Hot water rinse cycle • Refill water tank (never run out of water) • Refill beans • Empty internal tray • Brew chamber cleaning cycle (w. tablet) to remove internal coffee oil build-up • Water filter exchange • Decalcifying
- Unlimited steam and hot water output
- Removable water container with valve
- Fits underneath standard kitchen cabinets (16" clearing)
- Cleaning Tablets and Water Filter included
- Full instructions, water proof quick reference guide, DVD included.
- Warranty includes free 2-way transport within the lower 48 states
- All machines are UL listed
- Mo-Sa: toll free 800 number with in-house customer service representatives
