

VintageView® Floor and Ceiling Mount Frame Installation Instructions

Tools commonly required for installation:

- Tape measure
- Electric drill with Phillips head screw tip
- Hack saw
- Metal file

Each FCF comes with the following:

- 2 frame pieces
- 2 plastic couplers
- 40 self-drilling screws

1. Measure the exact dimension between the floor and ceiling in the exact position you intend to place the frame. Subtract 5 feet (60 inches) from the measured dimension.

Example:

98" floor to ceiling measurement

$98'' - 60'' = 38''$

2. Using the resulting dimension, mark both rails on one of the frame halves.
Note: Be sure to mark the end opposite the mounting plate.
3. Using a hack saw, carefully cut both rails squarely at the markings. Clean off any burrs with a metal file.
4. Insert the plastic couplers into the ends of one frame piece and slide the two frame sections together. Place the assembled frame on a level surface, so that the frame lays flat with support under the joint.
5. Remove 2 WS series racks from their packaging and remove the plastic end caps from the bottom of one set and from the top of the other set.
6. Determine whether you would like the bottle necks to face left or right. Using the set of WS series racks with the plugs removed from the top, place either the neck or base of the rack on the 5' section of the frame rail. Butt the bottom of the rack against the mounting plate that will be fastened to the floor. Using the provided self-drilling screws, mount the WS series rack to the frame.
Note: To prevent stripping the screws, do not over tighten.
7. Attach the other side of the rack to the 2nd rail and insert the plastic couplers provided with the WS series racks into the bottom of the 2nd set of racks.
8. Slide the coupler into the 1st rack and attach it to the frame. Repeat for the other half of the rack.
Note: It is recommended that you only attach racks to one side of the frame before installation to retain easy access to the mounting plates.

9. Stand the frame in place and shim at the top, if necessary, to achieve a snug fit.
10. Attach the frame to the ceiling first with the appropriate fasteners for your surface*. Next, attach the frame to the floor using fasteners suitable for that surface*.
11. Once the frame is securely fastened to the floor and ceiling, attach the remaining racks to the opposite side.
Note: You may need to offset the racks vertically about 1/8" so that the screws will not hit.
12. Load your racks with wine and enjoy the VintageView®!

***Recommended Fasteners:**

For attachment to drywall ceiling, use spiral inserts or expanding wall anchors for both attachment points. When possible to attach into wood joists, use #10 X 1-1/2" screws.

For attachment directly into wood, use #10 coarse thread 1" screws.

Attaching into concrete we recommend predrilling and using 3/16" X 1" masonry screws or concrete anchors.

Wine Master Cellars, LLC warrants to the original consumer-purchaser that this product shall be free from defects in workmanship and materials under normal and reasonable use for the lifetime of the product.

Wine Master Cellars, LLC will, at its option, refinish or replace any product or part found to be defective during the warranty period and excludes installation charges, shipping charges, and cost of removal and reinstallation. Wine Master Cellars, LLC may require you to return the part(s) claimed to be defective, for its inspection - freight or postage prepaid.

This warranty does not include the cost of any inconvenience or property damage due to the failure of the product and does not cover damage due to misuse, abuse, accident, or damage arising out of transportation of this product. THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES. In no event shall Wine Master Cellars, LLC be liable or responsible for INCIDENTAL OR CONSEQUENTIAL DAMAGES or for any other direct or indirect damage, loss, cost, expense or fee. Neither the Wine Master Cellars, LLC distributor nor the retail establishment selling this product has any authority to make any warranties or to promise remedies in addition to or inconsistent with those stated above. Wine Master Cellars', LLC maximum liability, in any event, shall not exceed the purchase price of the product paid by the original consumer-purchaser. Some states do not allow the exclusion or limitation of incidental or consequential damages. In such a case, the above limitations or exclusions may not be applicable.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
