

# Nitro Cold Brew Countertop Dispenser

*By WineKeeper*

WineKeeper has been making refrigerated dispensers using nitrogen for over 30 years. To meet the rising demand for nitrogenated cold brew coffee, we are offering our **JavaKeeper**, a visually appealing countertop dispenser for the next wave in coffee.

The **JavaKeeper** uses a carb stone combined with a stout faucet to infuse cold brew coffee with nitrogen, giving it a unique taste and mouth feel.

**Retail: \$1,550**
